

HOW GARDEN HOSTS CAN DO A LIVE FEED in the Closed FACEBOOK GROUP – '2021 Virtual Sydney Edible Garden Trail'

AFTER YOU'VE SET YOURSELF UP, WE SUGGEST YOU PRACTICE FIRST ON YOUR OWN FACEBOOK PROFILE BEFORE DOING ONE IN THE VSEGT Group

1. Make you're registered on Facebook
2. Login and search for '2021 Virtual Sydney Edible Garden Trail'
3. Request to join this closed Facebook Group (if you haven't already)
4. Let us know two date and time options of when you'd like to do your feed
5. It would also be great if you joined the SEGT Hosts page (if you haven't already). This is the group where we keep in touch with all our Garden Hosts.

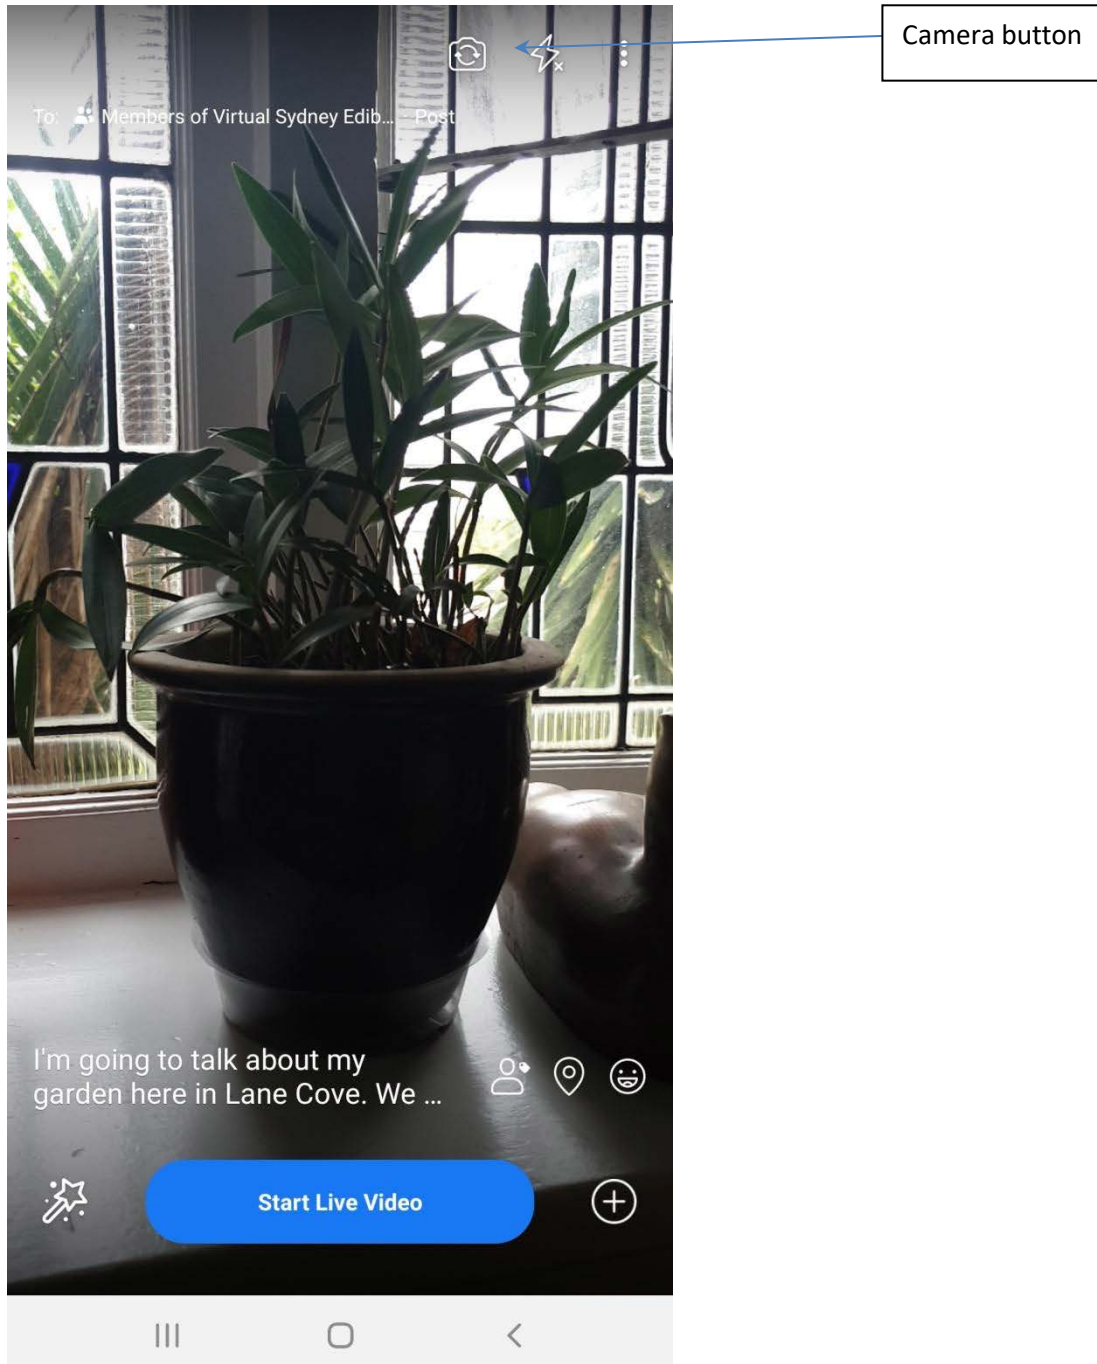

WHEN YOU'RE READY TO GO LIVE,

1. We'll change your member access in the group to 'Admin'
2. Go into the group and create a discussion post. Write something about your garden to give people an idea of what to expect. And select 'GO LIVE'

Select 'GO LIVE' where you would normally add a photograph

3. You'll then see a screen, like a video screen. YOU ARE NOT YET LIVE but you need to check that the camera is facing the right direction (not your face – unless you really want to do a tour of your face and not your garden). If the camera is facing the wrong way, press the button that look like a camera (the location of this will vary between android and apple phones)

4. Press 'Start Live Video', and you're off!
5. Some handy live video feed ideas
 - a. Go slow, don't zoom around it gives watchers vertigo
 - b. Focus in on different areas, features of the garden
 - c. Give people an idea of scale, mention how big the space is they're looking at
 - d. Zoom in close to some plants, features, points of interest

- e. If you feel confident, you can always swap the camera back to yourself for a little bit to chat to people
 - f. Keep an eye on the comments coming in, say hi to people who've joined your live video, answer questions that come up
6. When you've finished, stop the video
 7. There will be an option to save the video. Do it, that way you have it forever!
 8. Be sure to go back into your post later, so you can respond to comments, add more information about specific elements you talked about etc etc.

HAVE FUN!
